### Important Notes

- 1. Accuracy:** All calculations are based on current customs regulations and tax rates as per the referenced acts and circulars.
- 2. AI Classification:** Product classification is performed using AI-assisted technology. Items marked for manual review should be verified by a licensed customs broker.
- 3. Regulatory Compliance:** All charges are traceable to specific regulations cited in this report. This document is audit-ready.
- 4. Exchange Rates:** Currency conversion uses current market rates. Actual charges may vary slightly based on the exchange rate at time of payment.
- 5. Official Clearance:** For official customs clearance, please consult with a licensed customs broker. This report is for estimation purposes.
- 6. Validity:** This calculation is valid as of the generation date shown above. Rates and regulations are subject to change.
